## About me

I'm currently 21 years old. One of my favorite things is designing websites and converting them into live sites. I never thought coding could be this fun when I started, and I'm constantly learning new things.

## Skills & Expertise

### Frontend Development

- Html
- CSS
- JavaScript
- TypeScript
- React.js
- Next.js
- Tailwind CSS
- Framer Motion

### DevOps & Deployment

- Git & GitHub
- Vercel
- Render

### Backend & APIs

- Supabase
- Strapi Headless CMS
- Notion Api
- Stripe

### Design & Prototyping

- Figma

## Why Hire me?

I have a deep understanding of **Next.js** and can build complex, full-featured applications.

Skilled in **CSS** and **Tailwind CSS**, I can replicate designs with precision and attention to detail.

I'm always learning and improving to stay up-to-date with modern best practices.

I care about clean, maintainable code, thoughtful UI/UX design, and high performance.

✨ Currently open to remote frontend opportunities, let's build something great.

## Projects

### NoNex ( Notion + Next.js )

Build websites using Notion as a CMS & Backend Database.

Website link : <https://nonex.vercel.app>

Tech Stack : Next.js, React, JavaScript, Tailwind CSS, Html, Notion api.
